

THE FARM BY JOANNE RAMOS

Chappelle Gardens Book Club Review:

Ramos tells a compelling story about Jane, an immigrant from the Philippines, whose cousin Ate convinces her to apply to The Farm – a posh surrogacy facility that pays big bucks to its surrogates – to help give Jane’s own daughter a better life. Is this science fiction or currently happening today? The facility monitors your every move, you’re not allowed to meet the parents a.k.a. “clients,” and leaving the grounds is unacceptable.

Jane meets friends from different demographics and this book kept us all interested!

“Beach read meets Margaret Atwood”

“A great plot that left us wanting to know more”

“Ending was to quick, but we all finished it”
